1 Introduction

1.1 This manual

This manual contains the instructions for repairs and general maintenance of the Sedeo seating system (Sedeo Lite/Pro/Pro+). Mechanics who do repairs on this seating system must be well trained and familiar with the repair methods and the maintenance of the seating system.
Always make sure that the work is carried out safely, particularly with respect to procedures requiring the seating system to be lifted up.
We advise that you contact our service department before doing repair work on a seating system that has been involved in an accident.
The following specifications are important when ordering parts:

- Model
- Year of manufacture
- Identification number
- Part number
- Name of the part concerned

This information is provided on the identification plate. See 'Identification of the product'.

Available documentation
The following technical documentation is available / required to service this seating system:

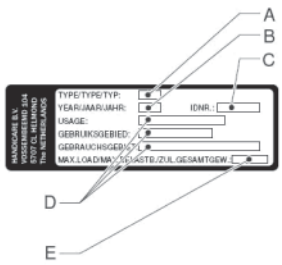
- User manual
- Service manual

Service and technical support
For information concerning specific settings, maintenance or repair works please contact your supplier. He is always prepared to help you.
Ensure you have at hand:

- Model
- Year of manufacture
- Identification number

This information is provided on the identification plate. See 'Identification of the product'.

1.2 Identification of the product



The identification plate contains the following data:
A. Model
B. Year of manufacture
C. Identification number
D. Use area indoors or outdoors
E. Maximum load in kg

1.3 Symbols used in this manual

Warning symbol

Follow the instructions next to this symbol closely.
Not paying careful attention to these instructions could result in physical injury or damage to the seating system or the environment.

Reference symbol

The symbol refers to a separate user manual. This reference will indicate the specific user manual and the section to which is being referred.

2 Safety

2.1 Personnel qualification

Service technicians:
Repairs may only be carried out by trained and authorised service technicians.
During the execution of their work, they are at all times fully responsible for the fulfilment of locally applicable safety guidelines and standards.
Temporary employees and persons in training may only carry out repair and replacement work under the supervision of an authorised service technician.

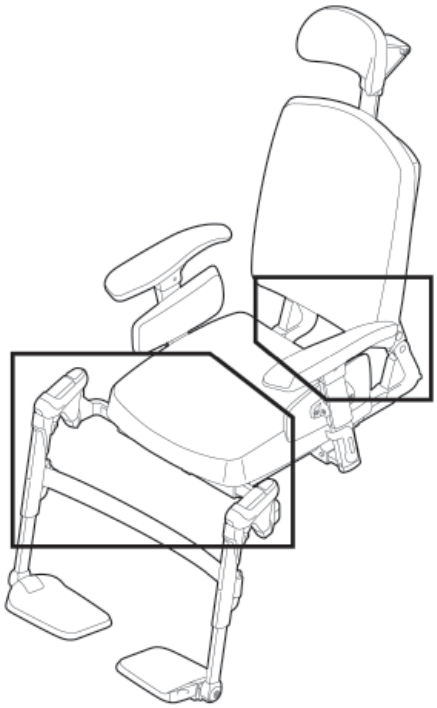
2.2 Cautions and warning statements

⚠ **Safety**
Safety information is indicated with the warning symbol.

- Follow the instructions carefully next to these warning symbols! Not paying careful attention to these instructions could result in physical injury or damage to the seating system or the environment. Where ever possible, safety information is provided in the relevant chapter.

⚠ **Temperature**
- Avoid physical contact with the seating system's motors at all times. Motors are continuously in motion during use and can reach high temperatures. After use, the motors will cool down slowly. Physical contact could cause burns.
- If you do not use the seating system, ensure that it is not exposed to direct sunlight for lengthy periods of time. Certain parts of the seating system, such as the seat, the back and the armrests can become hot if they have been exposed to full sunlight for too long. This may cause burns or allergic reactions to the skin.

⚠ **Moving parts**



- A seating system has moving and rotating parts. Contact with moving parts may result in serious physical injury or damage to the seating system. Contact with the moving parts of the seating system should be avoided.
- Electrical backrest adjustment
- Electrical elevating legrests

⚠ **Decals and instructions on the seating system**
Decals and instructions on the seating system
- The signs, symbols and instructions affixed to the seating system comprise part of the safety facilities. They must never be covered or removed. They must remain present and clearly legible throughout the entire lifespan of the seating system.
- Replace or repair all illegible or damaged signs, symbols and instructions immediately. Please contact your supplier for assistance.

2.3 Used decals on the seating system

Check manual before using

The seating system must not be lifted up by the armrest assembly, complete and/or legrests.

The stability of the seating system is influenced by the adjustment of the seating system’s centre of gravity. Such adjustments should be made by professionals only.

3 Tools, parts and components

3.1 Tools

The tools below are needed for various mechanical settings and maintenance:

Quantity	Description	Size (mm)
1	Screwdriver, medium	-
1	Screwdriver, crosshead	-
1	Hammer (plastic)	-
1	Chaser	-
2	Open ended spanner	17
2	Ring spanner	13
1	Torx key	T25, T30
1	Loctite 243	-
#	Tie wraps	
Remark Size: the EU key width (of the relevant tool).		

⚠ Use only high-quality tools for the adjustment(s) described.
Make sure that the hexagon of the spanner is attached securely to the hexagon of the fastening article. This prevents the 'rotation' of hexagons of fastening articles and spanners that may affect proper adjustment.

4 Spare parts

4.1 Use of the parts lists

This document is meant as a reference book to be used to order parts for the seating systems that are shown on the front cover.

How to order:
When ordering parts, please specify:
- Serial number (see the identification plate)
- Group (to which the relevant part belongs)
- Article number
- Number of parts required
- Description (in the relevant language)
- Dimensions (if applicable)

Remark:
- If a part does not have a position number, it means that the part concerned cannot be purchased separately. The part concerned is part of the assembly shown. This assembly must be ordered as one piece. It has to be replaced in its entirety.
- Boxed position numbers refer to the relevant drawing.

Order address:
Please mail or fax your orders to your supplier.

Service technicians:
Repairs may only be carried out by trained and authorised service technicians.
During the execution of their work they are at all times fully responsible for the fulfilment of locally applicable safety guidelines and standards.
Temporary employees and persons in training may only carry out repair and replacement work under the supervision of an authorised service technician.

5 Service instructions

5.1 Maintenance plan / Reimbursement plan

Below, we have indicated what needs to be checked, how often this should be done and by whom.

Time	Description	To be carried out by	
		User	Supplier
Monthly	• Cleaning the seating system.	x	-
	• Cleaning the upholstery (if necessary).	x	-
Annually	• Inspecting the mechinical parts	-	x
	• Checking all fastenings and bolts: tighten if necessary	-	x

For disinfecting spray the chair with alcohol.

This document is a reference book to be used to order parts for the Sedeo seating system.

Assembly, replacement and adjustment instructions

The paragraphs § 5.2 (Sedeo Lite) and § 5.3 (Sedeo Pro) cover illustrated assembly, replacement and adjustment instructions.

Every separate visual instruction is prefaced with:
• Preparation remarks
• Instructions
• Relevant article numbers
• Tools used
• Notice (if applicable): extra notes covering information you need when executing the specific task)

5.2 Assembling, replacement and adjustment instructions Sedeo Lite

5.2.1 Replacing the backrest frames

Replacing a backrest frame with a different seat width

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

Instructions
Note! Suitable work area required!
- Follow the illustrated instructions for replacing the backrest hinge set and frame sling.
- Rebuild afterwards the wheelchair in reversed order.

Relevant article numbers

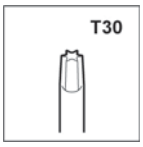
5.2.2 Adjusting or mounting the seat cushion fixation set

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

Instructions
Note! Suitable work area required!
- Follow the illustrated instructions for adjusting or mounting the seat cushion fixation.
- Rebuild afterwards the wheelchair in reversed order.

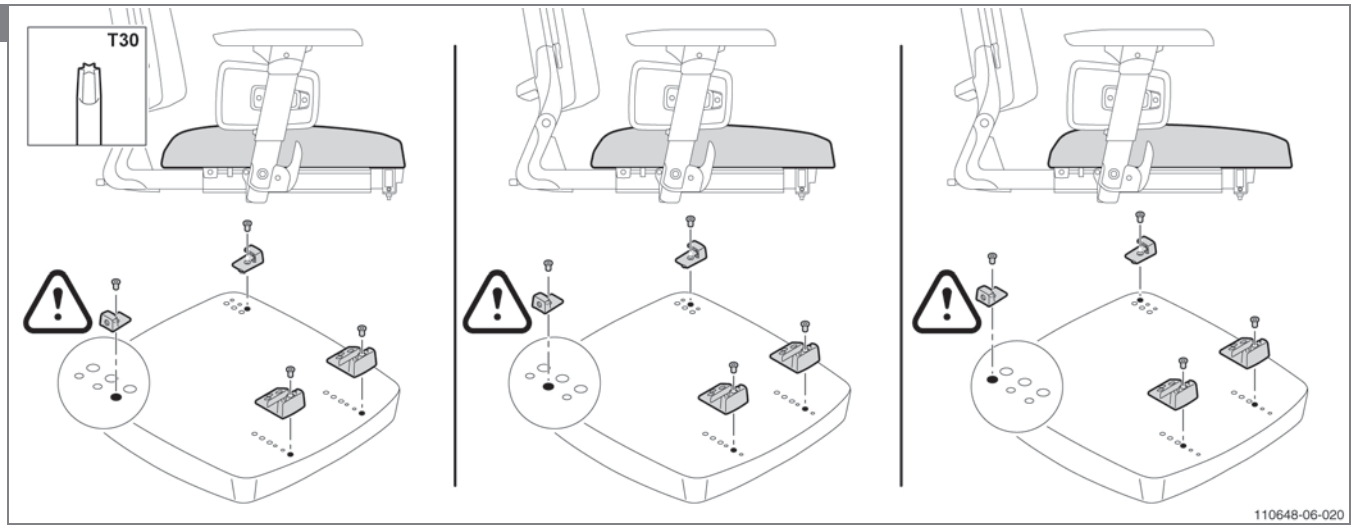
Relevant article numbers
- 1010953 Seat cushion fixation set
- 1012267 Interface board Sedeo Original

Tools used



Notice
Ex-factory the fixation brackets on the cushion or seat are always mounted in the middle position! In case you want to reposition the seat cushion, place the fixation brackets at the front and backside always in the same holes! The seat board Sedeo Lite SD40 has only two positions. Ex-factory the fixation brackets on the seat board are mounted in the back position.

1



5.2.3 Mounting the standard or swing-away remote holder

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

Instructions
Note! Suitable work area required!
- Follow the illustrated instructions for mounting the standard or the swing-away remote bracket.
- **Note!** Check the cable laying after you have mounted the swing-away remote holder, connected the remote control and adjusted the height, width and depth of the armrest. The remote control cable needs enough clearance to swing away the remote control freely inwards and outwards.

Relevant article numbers

5.3 Assembly, replacement and adjustment instructions Sedeo Pro

5.3.1 General instruction: Removing drop out protection parts

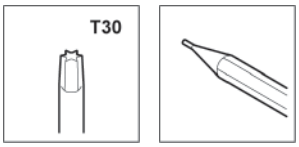
Introduction
Sedeo Pro has parts that are protected against dropping out, at the moment you take them out to maximum position. Parts like armrests (width/height), legrests (width/height) and sliders have such a protection.

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

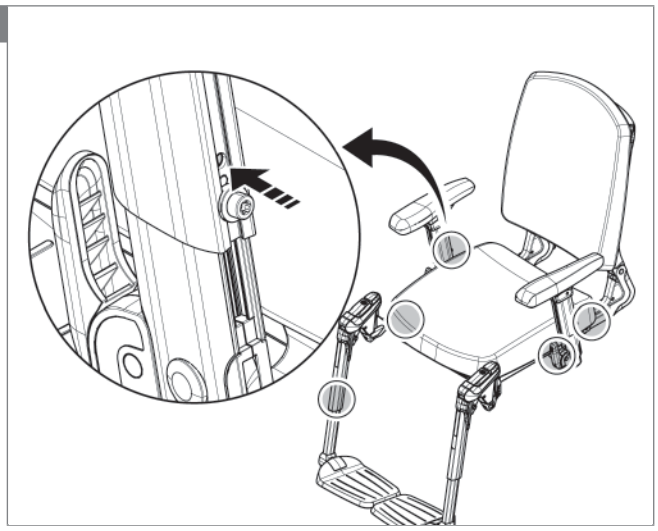
Instructions
Note! Suitable work area required!
- Loosen the wing nut or T30 Torx bolt one turn, pull out the part in the maximum position and press the locking pin to take out the part.

Relevant article numbers
- N.a.

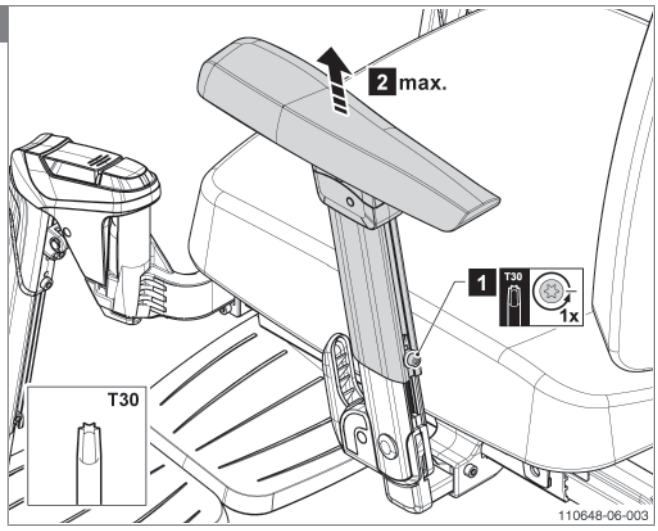
Tools used



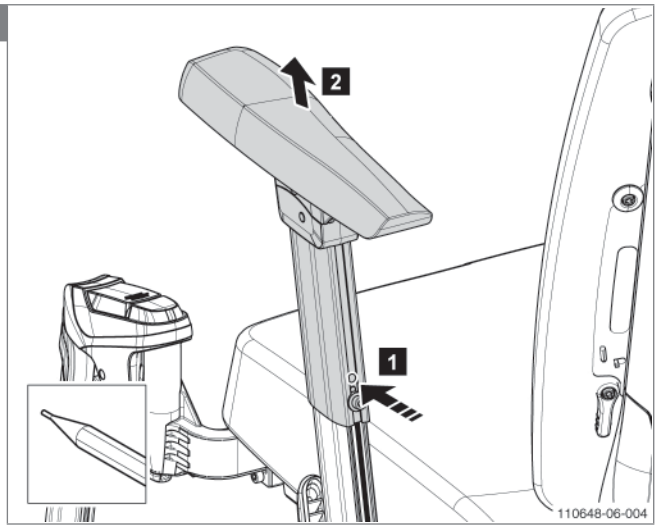
1



2



3



5.3.2 General instruction: The use of the clamp nut

Introduction
Sedeo Pro is build with extrusion profiles. For strong and reliable connections and easy adjustable parts Handicare designed the clamp nut connection. Most part connections, mounted on extrusion profiles, have such a clamp nut connection.

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

Instructions
Note! Suitable work area required!
- Each clamp nut has a protection, which has to be positioned across a protection opening.
- The following actions are required for adjusting these parts: loosen the Torx bolt one or two turns, position part in the desired position and tighten the Torx bolt.

Relevant article numbers
- N.a.

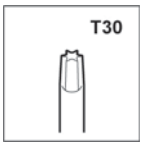
5.3.5 Adjusting or mounting the seat cushion fixation set

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

Instructions
Note! Suitable work area required!
- Follow the illustrated instructions for adjusting or mounting the seat cushion fixation.

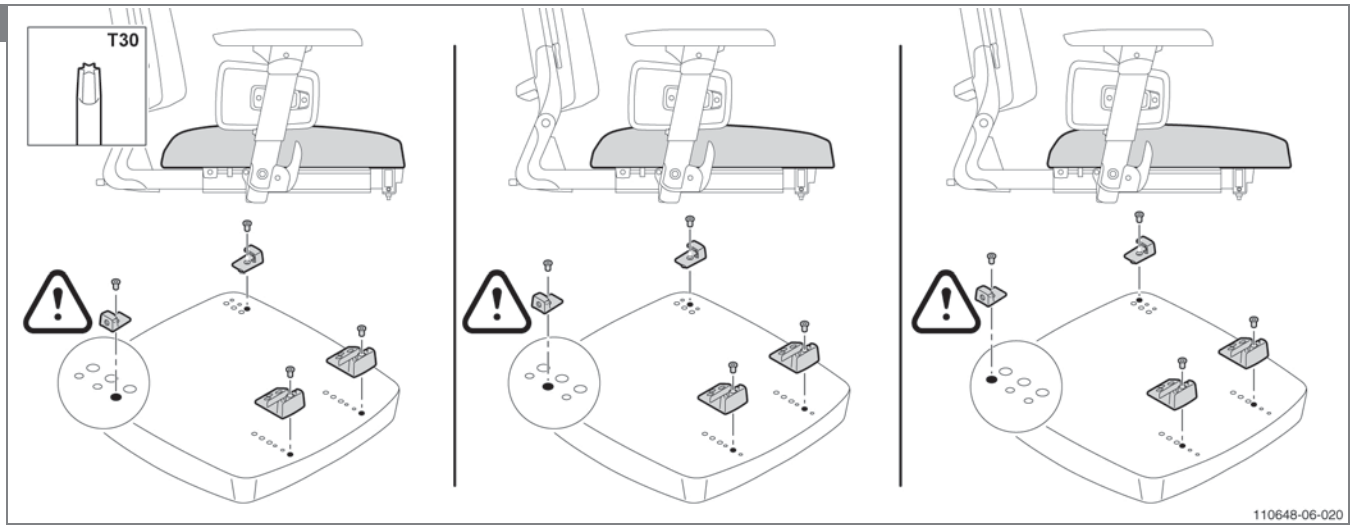
Relevant article numbers
- 1010953 Seat cushion fixation set
- 1012267 Interface board Sedeo Original

Tools used



Notice
Ex-factory the fixation brackets on the cushion or seat are always mounted in the middle position! In case you want to reposition the seat cushion, place the fixation brackets at the front and backside always in the same holes! The seat board Sedeo Lite SD40 has only two positions. Ex-factory the fixation brackets on the seat board are mounted in the back position.

1



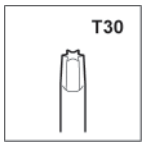
5.3.6 Mounting the backrest cushion fixation set

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

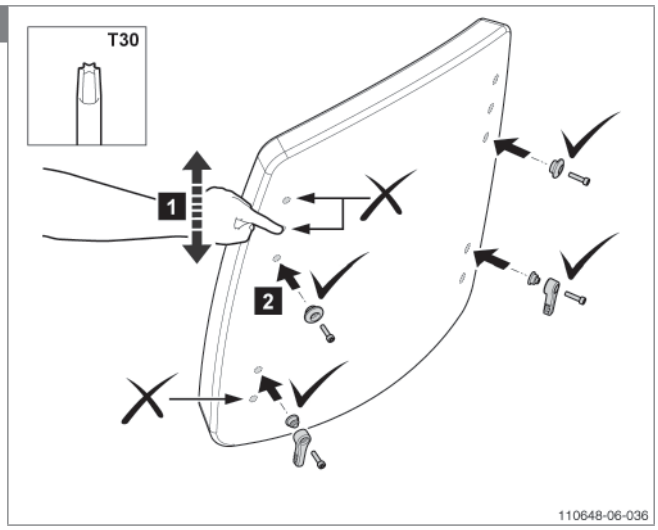
Instructions
Note! Suitable work area required!
- Follow the illustrated instructions for mounting the backrest seat cushion fixation set.
- Rebuild afterwards the wheelchair in reversed order.

Relevant article numbers
- 1010889 Backrest mounting set

Tools used



1



Note! Define by feeling the lowest hole at the top of the frame and the highest hole at the bottom of the frame. The unused holes are intended for the Sedeo Original seat frame!

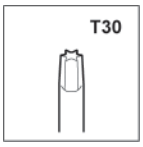
5.3.7 Mounting the thoracic supports

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

Instructions
Note! Suitable work area required!
- Follow the illustrated instructions for mounting the thoracic supports.
- Rebuild afterwards the wheelchair in reversed order.

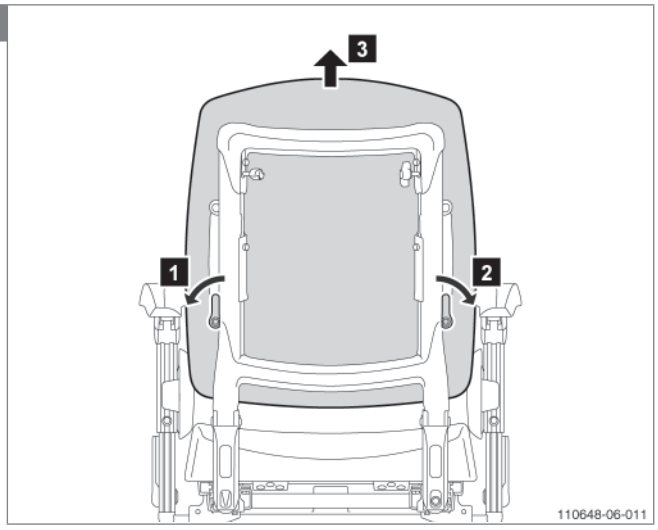
Relevant article numbers
- 1010979 Thoracic support set complete
- 1010978 Thoracic support mounting set
- 1010980 Thoracic support cushion

Tools used

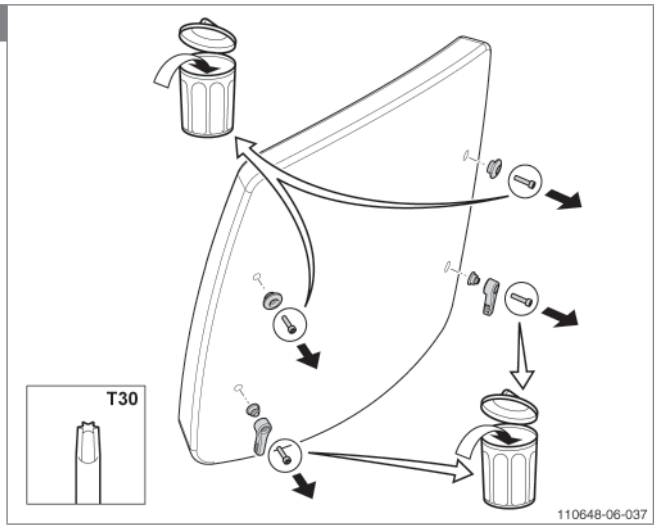


Notice
Some parts needs to be replaced; the replacement is indicated by a symbol.

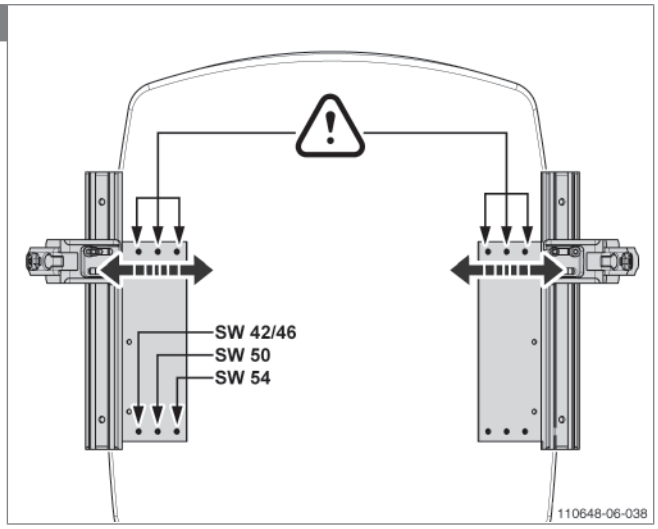
1



2

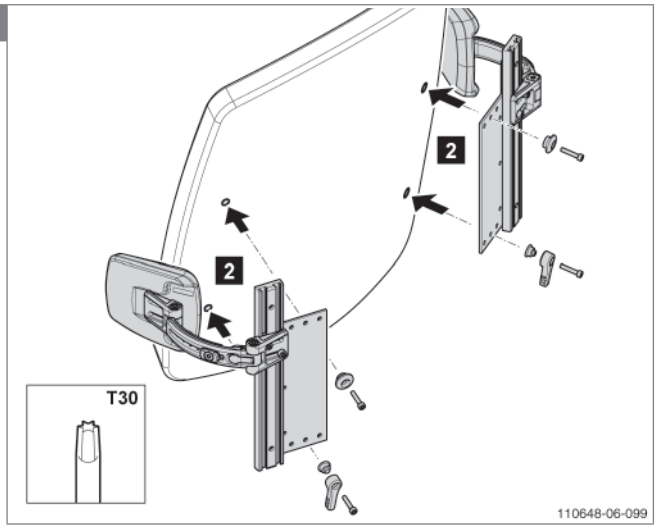


3



Note! Define the desired width adjustment, taking into account the different width adjustments of the bracket and cushion depths!

4



5.3.8 Mounting the (manually elevating) central legrest

Preparation
Note! Switch off the wheelchair via remote control (power wheelchair only).

Instructions
Note! Suitable work area required!
- Follow the illustrated instructions for mounting the manually elevating central legrest
- Adjust the level of friction of the footplate by tightening / unscrewing the Torx on the bottom of the footplate.

Relevant article numbers
- 1011156 Standard central legrest
- 1011157 Standard central legrest with calf plate
- 1011158 Manually elevating central legrest
- 1011159 Manually elevating central legrest with calf plate

Tools used

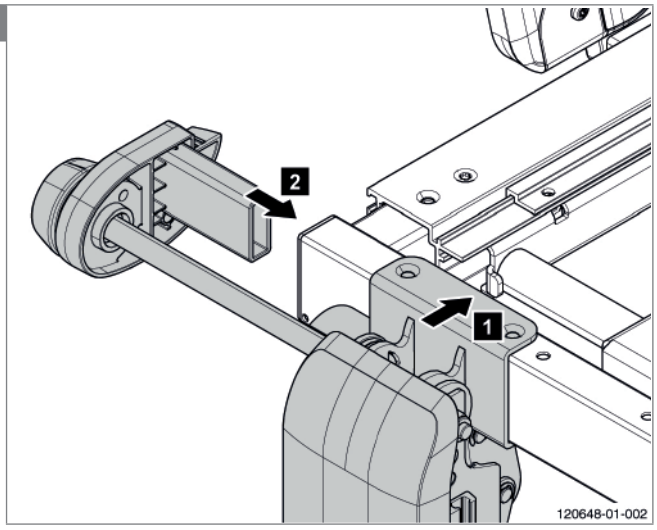
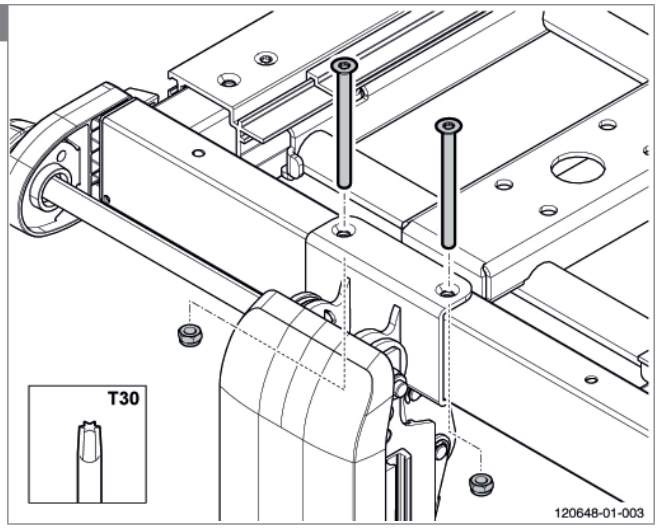
2

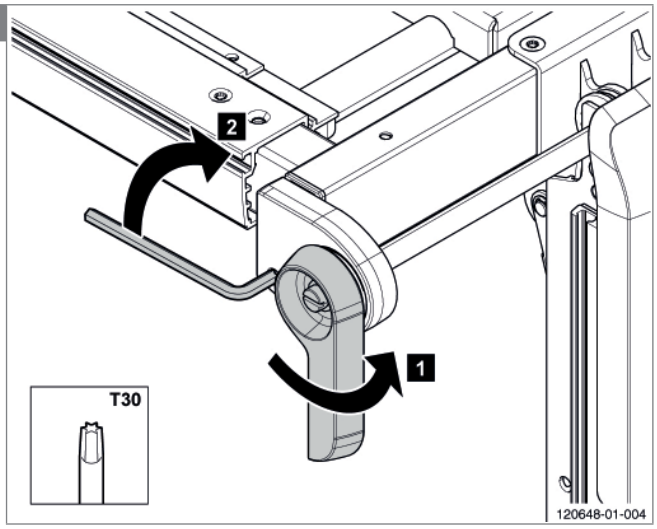


Note! Release the operating lever

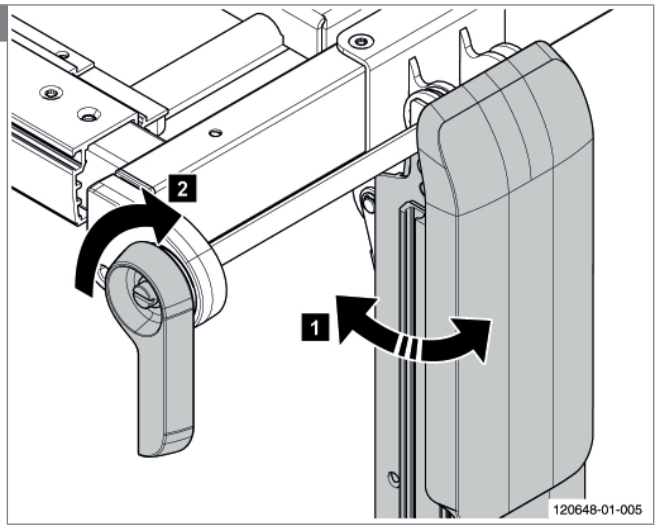
3



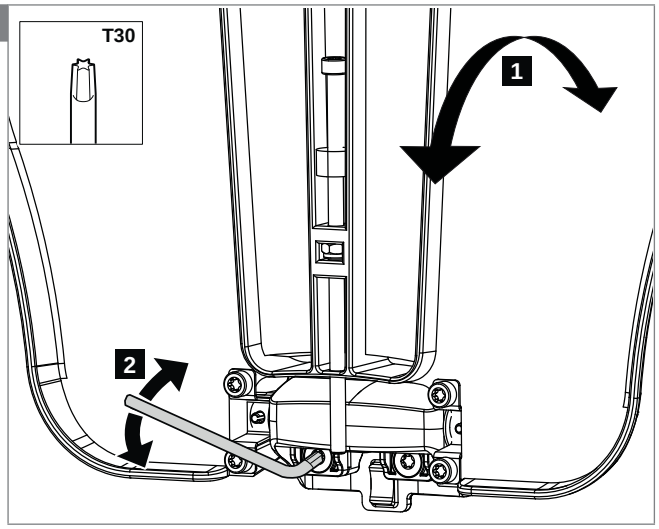
4



5



6



5.3.9 Mounting the electrically elevating central legrest

Preparation
Note! Switch off the wheelchair via remote control.

Instructions
Note! Suitable work area required!
- Remove seat and legrests.
- Unscrew the bolts (4x) that attach the legrest support frame to the seat support frame.
- Release the footplate fixing screw and lower the footplates to remove it from the legrest.
- Screw the calf plate mounting bracket to the central column.
- Mount the calf plates to the mounting bracket.
- Slide the central legrest unit into the front of the seat support frame and secure the central legrest unit with the bolts (4x) on the top and one bolt on either side of the seat support frame.
- Attach cable extensions to connectors and control box

Note! See backside of control box cover for wiring diagram.
- Hook the seat in place and push it downwards into position.
- **Caution!** Reprogram the controls of the chair.

Relevant article numbers

Width calf supports	350 - 430 mm
Sedeo Original / Standard legrest (set)	
Lower leg length	360 - 530 mm
Knee angle	70°
Ankle angle	0 - 180°
Sedeo Original / Elevating and electrical elevating legrest (set)	
Lower leg length	360 - 540 mm
Knee angle	70° - 0°
Ankle angle	0 - 180°
Calf support height	120 mm
Headrest	
Headrest height (memory)	170 mm
Headrest depth	180 mm
Headrest vertical angle	-45° - 45°
Headrest width (option)	standard headrest -20 - 20 mm, width adjustable headrest -110 - 110 mm
Controller bracket	
Controller bracket height	60 mm
Controller bracket depth	35 mm
Controller bracket swing-away	
Controller bracket height	50 mm
Controller bracket depth	35 mm
Controller position angle	0 - 45°

Push bar	
Push bar height	920 - 1250 mm
Hemiplegia	
Hemiplegia armrest angle (option)	0 - 45°
Abduction support	
Abduction support height	60 - 120 mm
Abduction support depth	60 - 110 mm

8 Warranty

8.1 Definitions of terms

Definitions of terms used in this warranty:
- After sales service part: Part purchased after the intial product that is durable and may be subjected to natural wear and tear or natural contamination during normal operation within the lifetime of the product.;
- Consumable part: Part that is subjected to natural wear and tear or natural contamination during normal operation within the lifetime of the product (section 9 of Handicare's general terms and conditions of sale);
- Client: Those who purchase the product directly from Handicare;
- Corrective action: Repair, replace or refund of the product;
- Dealer: Those who re-sell the product to the User;
- Defect: Any circumstance due to which the product is not sound or fit to use, caused by a lack of quality of the material used to manufacture the product as well as the quality of the manufacturing process;
- Option: An accessory delivered with the initial product by Handicare to extend the standard product model;
- Product: Product that is delivered according to brochure or contract (e.g. wheelchair, scooter, battery-charger etc.);
- Part: Part of product that can be exchanged or replaced. This can be an option, accessory, service part or consumable part;
- Returns: Product or part that needs to be returned;
- RMA-process: Process to return goods, contact Handicare's Customer Service;
- User: Those who use the product;
- Warranty: The rights and obligations set forth in this document;
- Warranty period: The period of time during which the warranty is valid;
- Warranty provider: Handicare B.V., Vossenbeemd 104, 5705 CL Helmond, The Netherlands.

Notwithstanding the rights and obligations of Handicare, Client and User set forth in Handicare's general terms and conditions of sale, the rights of the Client and/or User towards Handicare in case of defects are limited to the provisions set forth in this warranty. For the duration of the warranty period Handicare guarantees that the product is without defects.
In case of any defects the User is required –within two weeks after discovery of the defect- to contact the dealer. He has to complete a return form and return the product or part via the RMA-process. Handicare will, at its sole discretion, take the corrective action it seems fit under the given circumstances within a reasonable period of time (depends on nature of claim) from receipt of the completed return form. The warranty period will not be extended after a corrective action.

8.2 Warranty period table

Seating

Description	Warranty period	Examples include, but are not limited to the parts mentioned below
Frame	2 years	Weldment/frame
Electronics	1 year	Electronic components
After sales service parts	New: 1 year after invoice Repaired: 90 days after invoice	Metal parts
Consumable parts	40 days after invoice	Upholstery etc.
Options/Accessories	2 years	Lap strap, bag brackets etc. Delivered with the initial product

Handicare will only accept shipment costs and corrective costs related to warranty on equipment during the warranty period.

This warranty will void in case of:
- The product and/or its parts being modified;
- Changes in cosmetic appearance by use;
- Failure to observe the instructions for use and maintenance, use other than normal use, wear and tear, negligence, collateral damage by neglect of earlier symptoms, overloading, third-party accidents, non-original parts used and defects not caused by the product;
- Circumstances beyond our control (flood, fire, etc.).

This warranty does not cover:
- Tyres and inner tubes
- Batteries (covered by the battery manufacturer's warranty).

Clients and/or Users have legal (statutory) rights under applicable national laws relating to the sale of consumer products. This warranty does not affect statutory rights you may have nor those rights that cannot be excluded or limited, nor rights against the entity from whom the product was purchased. Clients may assert any rights they have at their sole discretion.

Version	Page	Draw	Changes
2011 V1			
2012 V1	46	22	Changed the description of article numbers 1010904 till 1010909
	95		Changed the specification of the push bar height
2012 V2	3	-	Added spare part drawing numbers in table of contents
	18	07	Changed the description of article numbers 1010904, 1010905, 1010908 and 1010909
	24	12	Added position 25, article number 1015133: Clamp nut profiles (10 pieces)
	32/38/40	14-16	Added article numbers: 1015093, 1015091 and 00004.0291
	41	17	Added exploded view and spare part list Sedeo Original mounting bracket for legrests
	42-47	18-20	Replaced exploded view and spare part list Sedeo Pro standard legrest, comfort legrest and electrical comfort legrest by Sedeo Original legrest versions
